

END 2 END

SERVICES

TRUSTED PARTNER FROM SOURCE TO SOLUTION

Carmeuse is much more than lime and limestone. Through our Carmeuse End-2-End Services, we support you every step of the journey from providing quality raw materials and helping find the right logistics solutions, to working with you on enhancing your lime handling system.

[WE CONTRIBUTE TO A BETTER WORLD]

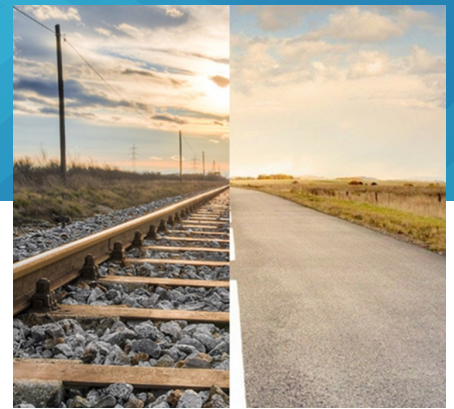

A PARTNER TO SUPPORT EVERY STEP

Carmeuse has been in the lime business for over 160 years and has a level of expertise that is unmatched in the industry. We support our customers through providing high-quality lime and limestone products along with logistics support to ensure products that are crucial to your application are there and ready to use. However, our services do not end there.

READY TO GET STARTED?

FIND THE RIGHT PRODUCT RAW MATERIALS

MINIMIZE THE HASSLE FREIGHT & LOGISTICS

QUALITY MATERIALS

We produce high quality lime and limestone and work with you to ensure you are choosing the right product for your unique needs.

- High Calcium Quicklime
- Dolomitic Quicklime
- Chemical Grade Limestone
- Hydrated Lime
- Ground Calcium Carbonate
- CALSAFE® Lime Slurry

TRUSTED SUPPLY NETWORK

Backed by a wide network of plants and terminals, Carmeuse provides widespread product availability and reliable supply to keep your operation running smoothly.

PARTNERING WITH CARRIERS

By maintaining strong relationships with trusted carriers, our logistics teams can help you find the best solution to get your raw material where it needs to be.

Our goal is to get the right product, to the right place, at the right time to let you focus on what moves your business forward.

Our End-2-End Services combine all facets of our business to provide peace-of-mind for our customers.

We go above and beyond to make things simple for you, and have the expertise to help no matter your need. That's the Carmeuse difference.

Through our wholly-owned subsidiary, Carmeuse Systems, we are able to provide expertise in the application of lime. As *Your Lime Handling Experts™*, Carmeuse Systems understands how to design and maintain lime handling systems for any application. We have the knowledge and resources to support our customers End-2-End.

APPLICATION EXPERTISE LIME HANDLING

CUT COSTLY WASTE SYSTEM ENHANCEMENT

REDUCE DOWNTIME MAINTENANCE & PARTS

SYSTEM SOLUTIONS

Once material gets on site, that's only half of its journey. Your product needs to be managed safely, efficiently, and reliably through storage, handling, and finally to the point of application. Carmeuse is uniquely suited to support your equipment needs via Carmeuse Systems.

As the experts in lime handling, our teams can design and integrate custom or standard lime systems.

- Truck Unloading & Pneumatic Conveying
- Silo Storage
- Flow Promotion & Feeding
- Lime Slaking Systems
- Slurry Storage
- Pumping & Slurry Handling
- Portable Slurry Production & Storage

EFFICIENCY IMPROVEMENTS

Our team provides insights on the performance of your lime handling system that help make your systems safer, more efficient and reliable. Through the latest technologies, upgrades and enhancements, our experts keep you running at your peak levels.

RAW MATERIAL REDUCTION

Wasted product equals wasted dollars. We evaluate the way you use lime and limestone on site to ensure you're using our product to the best of its ability, improving lime consumption and minimizing waste.

- System Retrofits & Upgrades
- Automation & Controls

ONSITE AUDITS

Identifying risk areas and minimizing loss in time events are critical to your operation. Our technicians perform onsite audits and provide recommendations on routine maintenance to help catch issues before they escalate.

REPLACEMENT PARTS

We have an inventory of parts and components at the ready to help avoid costly shutdowns and keep your lime handling systems running smoothly.

WE CONTRIBUTE TO A BETTER WORLD

Carmeuse is a global manufacturer of lime and limestone products used in a variety of applications, which provide cleaner air, safer water and improved soil characteristics. Carmeuse is an industry leader, not only with the variety of lime and limestone products we offer, but also with the customized equipment and engineering solutions we provide for your plant, storage, and product transfer needs.

YOUR LIME HANDLING EXPERTS™

Carmeuse Systems is your trusted partner for designing, integrating, and upgrading lime handling systems. As part of the Carmeuse Group, our teams have unrivaled expertise in understanding the role of lime handling equipment within your operation. From selecting the appropriate raw material, to system engineering, enhancements, and maintenance, our teams provide End-2-End support and guidance. We make complex projects seem simple and help our customers every step of the way.
